Consortia:
The Power of Partnerships and Sharing

It is an interesting time in Maryland. As we explore new directions for consortial initiatives in the state, let's take a day to discover how exemplary consortia model new cooperative ways of doing business. The day will begin with a panel of experts representing four different state-wide consortia. They will share with us how their consortia function and the new and innovative initiatives they are developing to take advantage of the power of partnerships and sharing. Afternoon breakout groups will allow participants to discuss and begin planning projects together. Panelists include:

- Kathy Perry, VIVA Director
- Merryll S. Penson, Executive Director for Library Services at GALILEO
- Bruce Hulse, Director of Information Services at WRLC
- Richard Palladino, President of the WALDO Executive Board and Director of Libraries at Iona College
